Stephen Boucher

Program director for EU climate policies and European Climate Foundation

Stephen Boucher recently joined the European Climate Foundation as programme director, EU climate policies.

Stephen was a consultant in the energy policy field, and in lobbying and EU affairs in Brussels and London before joining Jacques Delors Institute. He was previously adviser on European and international affairs for the Belgian Deputy-Prime Minister and Minister for transport. He has also taught lobbying in Europe as Adjunct Professor at Sciences Po in Paris. He is French and American, and holds a Mid-career Master in Public Administration from Harvard University and a post-graduate degree in comparative politics from Sciences Po.
