

Nicolas Berghmans

Research Fellow, Climate and Energy, IDDRI

Nicolas Berghmans is a Research Fellow at IDDRI on Energy and Climate policies, specializing in the electrical sector. His work focuses on the integration of renewable energies into the electricity system and the governance of energy markets in Europe. Nicolas holds a Master's degree in international relations with a specialization in Economics from SciencesPo Paris. He previously worked as a researcher at CDC Climat, a subsidiary of Caisse des Dépôts et Consignations on climate economics. Nicolas speaks French, English, Spanish.
