Brussels

Ebru TURHAN, Research Fellow, *Istanbul Policy
Center*, Istanbul

Moderator: **Elvire FABRY**, Senior Research
Fellow, *Jacques Delors Institute*, Paris

The seminar will be in English

As negotiations on the Transatlantic Trade and Investment Partnership proceed, questions arise regarding the impact it will have on third states with free trade or customs union agreements with either the EU or the US, and how such third states could be included in TTIP for the economic and political benefit of all. The experts invited will discuss the implications of TTIP for Turkey.

[Global Turkey in Europe](#) (GTE) has been initiated by the Stiftung Mercator, the Istituto Affari Internazionali (IAI) and the Istanbul Policy Center (IPC) in June 2012 to explore how the EU and Turkey can enhance their cooperation (within, not necessarily beyond the accession process), in the political, economic, security domains.
