

The International Climate Show and Jacques Delors Institute cordially invite you to the EU Industry Day side Event on:

SUPPORTING START-UPS AND SMES IN THE ENERGY TRANSITION

21/02/2018

EIT House, rue Guimard 7, 1040 Bruxelles

17:30 - 19:00

Register (for free) on the [event page](#) !

The Paris Agreement sets for the first time a precise greenhouse gas emissions target: **net-zero emissions**, in this century. Delivering Paris requires **innovation on a massive scale** with the deployment of **new technologies, processes, services, business models, techniques and behaviours** –many of which are still to be created. This can only be achieved by the combined effort of very different sets of players: from researchers to entrepreneurs, from Governments to start-ups, from incumbents to disruptors. **How can the EU better support start-ups and SMEs** to make them the global providers of the solutions delivering sustainable energy for all?

To contribute to the ongoing debate, the **International Climate Show** teams up with the **Jacques Delors Institute** to tackle such pressing issues in Brussels, where the **"Clean Energy for all Europeans" Package** and the **post-2020 EU research and innovation** programme are currently under discussion.

Programme

- 5:30pm ▪ Keynotes
- 5:50pm ▪ Panel discussion
- 7:00pm ▪ Cocktail reception

With

- Geneviève Pons, Director, Representation of the Jacques Delors Institute in Brussels
- Guillaume Gillet, Manager EU Business Unit, InnoEnergy
- Philippe Tulkens, Deputy Head of unit, European Commission, DG RTD
