## What do we need a World Trade Organization for?

The WTO is the bedrock of the global trading system. Yet it is increasingly in need of reform. In this webinar, we will discuss with Ignacio Garcia Bercero, Chad Down and Elvire Fabry how to take the WTO forward.

Dr. Christian Bluth

The World Trade Organization is an organization in crisis. The institution that is meant to be the bedrock of rules based trade struggled to remain the place where rules are negotiated and the demise of the Appellate Body has undermined its ability to enforce rules. The CoVid19 epidemic and the recent resignation of its Director General have further aggravated the crisis. But they also provide a chance to renovate, rebuild and reinvigorate an institution that is perhaps now more needed than ever.
